GUIDEBOOKS

• Discover Inclusive Physical Education: A Guidebook for Educators
• Discover Accessible Fitness: A Wheelchair User’s Guide to Using a Fitness Center
• Discover Inclusive Safe Routes to School: A Guidebook for Including Students with Disability in SRTS
- **Discover Camp**: Considerations for sending youth with a disability to camp for the first time.
- **Discover Leisure**: Understanding and appreciating the value and importance of leisure time physical activity for youth with disabilities.
- **Guidelines for Disability Inclusion in Physical Activity, Nutrition and Obesity Programs & Policies**: A guidebook to assist in the updating of community health programs and policies to be inclusive of the needs of people with disabilities.
- **Community Health Inclusion Sustainability Planning Guide (CHISP)**: The CHISP is a supplement to the Sustainability Planning Guide for Healthy Communities (CDC, 2011) and may be used in conjunction with it.
- **Get the Facts**: an online magazine that will help you become more physically active or, if you are a service provider or family member, equip you with the knowledge to provide a more enriching physical activity program.

### VIDEOS

- **Know Your Rights**: Sports are for Everyone! video series
- **Disability Awareness**: Sensory Disability
- **Disability Awareness**: Intellectual Disability
- **Disability Awareness**: Physical Disability
- **General Disability Awareness**
- **Inclusive Class Design**
- **Adapting the Alabama Physical Fitness Assessment Test**
- **Alabama 504 Inclusive Activity Campaign**
- **Mary’s Top 10 Communication Tips**
- **Kids Adaptive Yoga**
- **Autism and Exercise** video series
- **Zumba Fitness® (Inclusive)**
- **How I Walk**: A Campaign to Rebrand Walking video series
- **Kids Korner Nutrition**: Quick and Healthy Lunches
- **Kids Korner Nutrition**: Heart Healthy Snacks
- **Kids Korner Playlist**
- **Sports Series**
- **Inclusion in Every Play**

### TARGET AUDIENCES

**Educators**: www.nchpad.org/Educators - On this page you will find tailored information for physical education, schools athletics, and out-of-school time.
PROGRAMS

**14-Week Program to a Healthier You!** - A free, personalized, web-based physical activity and nutrition program for individuals with disabilities and chronic health conditions.

**Champion's Rx** - A high-intensity daily workout program designed to challenge all ability levels. This workout program is geared towards individuals who are currently active and have access to a fitness facility or minimal exercise equipment.

CAMPAIGNS

**Commit To Inclusion**: A global campaign to end the exclusion of people with disability from physical activity and all associated areas. #CommitToInclusion

**How I Walk**: A campaign to rebrand the word walking. #HowIWalk

NEWSLETTER

**inclusive.health.connection** - An e-news resource for transforming your community. A monthly e-newsletter highlighting current news and research on physical activity and disability, events and conferences, and featured columns for all populations including youth.

**Kids Korner** - This column was created to engage youth, parents, and professionals working with youth with disabilities.

**Nutrition Spotlight** - This column features nutritional considerations for people with and without disability.

**Training Corner** - This column features articles related to fitness, wellness, and training topics.

TRAINING

NCHPAD has the ability to support physical activity programming for in school, out of school, and community settings that offer access to sports, nutrition, and fitness for students with disabilities designed to improve wellness, self-esteem, and independence. To request a virtual or in-person training or training resources, please contact us.
NCHPAD offers a free information service on a wide variety of topics related to physical activity, fitness, recreation, sports, leisure, nutrition, disability and chronic health conditions. Contact one of our talented information specialists to help you locate the resources you need. Technical assistance is available between the hours of 9:00 am- 5:00 pm CST on Monday-Friday via telephone 800-900-8086, live chat at nchpad.org, and email at email@nchpad.org.

**TOOLS**

**Community Health Inclusion Index (CHII)**
The CHII can be used to assess the level of health inclusion of a community at large, as well as at a wide range of built environment locations that make up a community, including physical activity, education, work, health care, and food sites. Aside from the community-at-large assessment, it also includes both in-person and organizational assessments that can be done on specific sites with a focus on the built environment, equipment, programs and services, staff, and policies. For additional information and access to the CHII contact Yochai Eisenberg at yeisen2@uic.edu.

**GRAIDS- Guidelines Recommendations and Adaptations Including Disability**
The GRAIDs include recommendations and adaptations to the CDC’s 24 obesity reduction strategies in order to ensure they are inclusive and accessible for youth and young adults with cognitive and physical disabilities. The four focus areas that all of the GRAIDs consider are physical activity, nutrition, culture, and policy. The recommendations and adaptations within each GRAID are broken out by four domains: (1) the built environment, (2) services, (3) instruction, and (4) equipment. For strategies to encourage physical activity or limit sedentary activity among children and youth go to http://new.reduceobesity.org/strategy-04/.
